

SOMETIMES IT'S GOOD TO JUST BLEND IN

COLOR
Snap[®]
Patent# 9,850,661 B2

INSTALLS IN A SNAP, LETTING YOU MATCH YOUR SNOW RETENTION TO YOUR SSMR

THE COLOR MATCHING SNOW RAIL

Color Snap[®] medium-heavy snow rail type snowguards allow you to insert a strip of roofing material into a groove on the snow rail, matching the rail color to your roofing material. Available in single rail configurations, Color Snap[®] is suitable for areas with moderately heavy snow loads. Not only does the rail snap in place, but the Ice Clip is the first of its kind on the market that is a snap-fit as well. No screws are needed to hold this Ice Clip securely. Our interlocking assembly makes installation a snap!
